

TECHNICAL SPECIFICATION

STANDARD REFERENCE SHEET · ENGLISH

Gasoil D2

Gasoil D2

Reference values from the existing The Brokers catalogue · English

Reference parameters

PARAMETER	REFERENCE
Product	Gasoil D2
Commercial designation	Gasoil D2
Quantitative specification	On inquiry — not published on the current page
Test report and delivery terms	Confirm in the proposal and current technical sheet.

Product specification — grade definition required

PARAMETER	REFERENCE
Market reference	"D2" alone does not define one unique international specification; request the supplier's standard, technical sheet and test report.
Parameters to define	Sulphur, cetane, density, viscosity, flash point and cold-flow properties; test methods and destination.

REFERENCE NOTE

These are reference values, not a lot-specific certificate of analysis, certification or supply commitment. Confirm the current supplier specification, lot documents and destination requirements for each transaction. If your requirements differ, share the desired parameters, volume and destination for assessment.
